

HOOK ROAD HUTMENT ESTATE

AMPFIELD PARISH, HAMPSHIRE

Layout at maximum development, c.1949

42 44 Pair of hutments with unit no's.

Garden boundaries interpolated approximately from OS 1:10,560 scale map and aerial photo.

Drawn over aerial photo base by Peter B. Russell.

Vsn.7 - 4th June 2018.

There seem to have been phases of building, but the numbers and sequence of construction are unknown. Eventual hutment numbering suggests that the first properties were along the Hook Road frontage.

Some OS maps show a ransom strip here for a potential SW extension, not a pair of semis. Later additions with later numbers?

N.B. Numbering shown is a mix of those known (without ? mark), plus deduction based on odds and evens being opposite sides of roadways, and numbers alternating, except mostly along Hook Road frontage. Numbers with ? are uncertain.

* No.40 - Honeycomb before Keen

One or two prefabs?
